

### Contingency Statement

I understand that final acceptance for duties as a CID Special Agent (MOS 31D) is contingent upon a favorable background investigation, including an evaluation of my personal characteristics and potential capabilities, successful completion of the Apprentice Special Agent Course, and successful completion of a one year apprenticeship period. I also understand that if I do not satisfactorily complete the prescribed course of instruction, I will be relieved from duty as a CID Special Agent and reclassified at the discretion of the Department of the Army.
